

SciDyn Announces Sales of its MinuteMan Calling Card and Billing System

CHERRY HILL, N.J., March 4, 2003/PRNewswire/ -- Science Dynamics Corporation, SciDyn, (OTCBB: SIDY), a leading developer of advanced telecommunications solutions, announces the successful deployment of its MinuteMan calling card and billing system. SciDyn has sold the MinuteMan system to clients in the U.S. and in Europe. These units have been successfully installed and are capable of processing over 32,000,000 minutes per month.

The flexible design of the MinuteMan enables customers to easily establish a carrier-grade pre-paid calling network, without complicated configurations or protocol conflicts. The advanced functionality of the MinuteMan includes interactive voice response supporting up to 99 languages, programmable call rating, and a complete pre-paid/post-paid billing system.

“Over the past year, SciDyn has re-focused our efforts to concentrate on those markets and products we believe to have the most revenue potential,” stated Alan Bashforth, SciDyn CEO and President. “The MinuteMan system is the first in a series of products from SciDyn designed to add features and functionality to existing Public Switched Telephone Network (PSTN) and next generation Internet Protocol (IP) telephony systems. Now that we have built a stronger foundation for SciDyn, we believe that 2003 will be an exciting year for our company and its shareholders.”

For more information about the MinuteMan Calling Card and Billing System, contact SciDyn at (856) 424-0068 or sales@scidyn.com.
