CHERRY HILL, NJ - March 2, 2000 -- Science Dynamics Corporation (OTCBB: SIDY) announced today that it has submitted its application to be relisted on the Nasdaq SmallCap(SM) Market.

"Securing SciDyn's relisting on Nasdaq is the first step in capturing the interest of institutional investors and mainstream analysts, as well as enhancing the attractiveness of our stock to existing shareholders. Relisting will be a key component of SciDyn's investor relations strategy, as Nasdaq offers greater access to available investment capital," SciDyn president and CEO Joy C. Hartman commented.

The Nasdaq SmallCap(SM) Market comprises more than 1,800 individual emerging growth companies. As the world's first electronic stock market, Nasdaq has consistently set the pace for innovation in the securities industry. Many of the world's largest and most successful companies trade on the Nasdaq Market.

On February 22, SciDyn announced that they have concluded a supply agreement with a next-generation provider of IP networks. SciDyn will supply IP telephony gateway solutions worth initially in excess of \$16 million for a minimum 50-site deployment.

About Science Dynamics

Headquartered in Cherry Hill, New Jersey, Science Dynamics Corporation (SciDyn) is a developer of telecommunications solutions. Products include: The IntegratorC-2000(r) series of IP Telephony Gateways; the Commander II Inmate Control phone system (also based on the IntegratorC-2000(r) architecture) and the VFX-200 series of Video over Frame Relay Access Devices (FRADs).
